## INTRODUCTION

I am a natural, creative storyteller with impeccable timing, a keen attention to detail and a significant sense of design. No story editor? No problem! I'm great at constructing a story from sometimes challenging footage and narratives. And I'm no stranger to working on tight deadlines. Passionate about factual & educational programming, documentaries and reality series. I excel in independent work environments, with little to no supervision, and I am very easy to work with. Please feel free to call any of my references to enquire.
